What is Capital Markets Forum?

The Capital Markets Forum (CMF) is a series of events that will catalyze change, connecting key financial centers around the world and fostering interconnected markets that can effectively respond to the dynamic needs of the global economy. CMF is a platform to uncover new insights and emerging trends, creating impactful dialogue between global market players, showcasing sectors and technologies that are shaping the future of capital markets. Partnerships fostered at CMF will drive innovation that leads to long-term growth, financial stability, and prosperity. Inspired by the success of the Saudi Capital Market Forum, CMF cultivates a lasting network that extends beyond each event's conclusion, driving growth beyond Saudi Arabia.

About Saudi Tadawul Group

The Saudi Tadawul Group (STG) serves as the parent company for a suite of specialized subsidiaries, including the Saudi Exchange, a dedicated stock exchange business; the Securities Clearing Center Company (Muqassa); the Securities Depository Center Company (Edaa); and Wamid, the innovation arm of the Group. Founded in March 2021, following the transformation of the Saudi Stock Exchange (Tadawul) into a holding group structure, the Saudi Tadawul Group has successfully integrated its subsidiaries to enhance the appeal and competitiveness of the Saudi capital market. Guided by its vision to become a world-leading holding group, the organization is committed to fostering a diverse Saudi capital market and serving as a vital bridge between global investors and regional economies.

About Hong Kong Exchanges and Clearing Limited

Hong Kong Exchanges and Clearing Limited (HKEX) is a publicly-traded company (HKEX Stock Code: 388) and one of the world's leading global exchange groups, offering a range of equity, derivative, commodity, fixed income and other financial markets, products and services, including the London Metal Exchange. As a super connector and gateway between East and West, HKEX facilitates the two-way flow of capital, ideas and dialogue between China and the rest of the world, through its pioneering Connect schemes, increasingly diversified product ecosystem and its deep, liquid and international markets. HKEX is a purpose-led organisation which, across its business and through the work of HKEX Foundation, seeks to connect, promote and progress its markets and the communities it supports for the prosperity of all.

Agenda

THURSDAY 29TH MAY 2025

Main conference, HKEX Connect Hall

The CMF main conference offers expert-led sessions that delve into global macroeconomic trends, uncovering key challenges and opportunities shaping the financial landscape. This agenda provides a comprehensive overview of worldwide market dynamics, policy shifts, and economic forecasts, fostering thought-provoking discussions and strategic insights. Designed for decision-makers, this platform emphasizes critical global topics, empowering attendees with the knowledge to navigate complex markets. Engage with influential leaders and thought leaders as they share actionable perspectives to shape the future of global finance.

08:30 - 09:00 Registration & Networking

09:00 - 09:05 Opening Speech by Hong Kong Exchanges and Clearing Limited

09:05 - 09:10 Opening Speech by Saudi Exchange

09:10 - 09:45 Fireside Chat: Bridging Economic Visions: A Government Perspective

"This discussion will explore the strategic priorities and opportunities for collaboration between Saudi Arabia and Hong Kong, with a focus on fostering economic ties and building resilient financial systems. As pivotal global markets, both Hong Kong and Saudi Arabia are driving the evolution of international investment landscapes.

The panel will cover strategic investment corridors that can enhance cross-border trade and financial integration. It will also examine how both countries can work together to construct an innovative financial ecosystem, particularly in the burgeoning fintech sector, considering Saudi Arabia's Vision 2030 ambitions to diversify its economy and Hong Kong's established role as a global financial technology hub. Additionally, the panel will focus on capital market integration, highlighting the practical steps that can attract global investors and increase capital flows between the two regions."

09:45 - 10:25 Panel 1: Enhancing Market Collaboration for Integrated Growth

"As capital markets globalize and become more interconnected, regulatory coordination plays a critical role in ensuring stability, transparency, and investor confidence. This panel convenes leaders from Saudi Arabia and Hong Kong's regulatory and monetary institutions to discuss how deeper alignment is enabling practical, cross-border outcomes - such as recent ETF cross-listings and joint efforts to advance asset and wealth management.

The discussion will focus on the tools, dialogues, and frameworks that support regulatory convergence, including licensing, product approvals, supervision, and investor protection. It will also explore how these collaborations are facilitating new corridors for capital flows between the Middle East and Asia, and laying the groundwork for long-term integration."

10:25 - 11:10 Panel 2: Market Leaders in Dialogue – Capital Access and Institutional Engagement

"This session brings together senior market leaders to reflect on the evolving dynamics of capital access, investor engagement, and global market integration. As Saudi Arabia deepens its connections with Asian and international markets, the role of exchanges, financial institutions, and innovative market platforms is increasingly critical to shaping the next phase of growth.

Panelists will explore how infrastructure and institutions are evolving to meet investor needs, enable product innovation, and expand access to both public and private markets. The conversation will also examine how deepening regional collaboration - particularly between Hong Kong and Saudi Arabia - is unlocking new opportunities for cross-border capital flows and long-term investor confidence."

11:10 - 11:35 Panel 3: Shaping the Future of Derivatives - Regional Vision, Global Opportunity

"As global financial markets evolve, the need for deeper connectivity and cross-border capital mobility is more pressing than ever. Exchanges and financial institutions are being called to collaborate across regions — not just to capture investment flows, but to shape the infrastructure, products, and trust that underpin long-term growth.

This panel brings together leaders from Hong Kong and Saudi Arabia — two dynamic financial hubs at transformative points in their market evolution — to explore how forward-looking collaboration can unlock new value. While the models and stages of development may differ, both regions share a strategic focus on innovation, product expansion, and investor confidence.

The discussion will highlight how Saudi Arabia is building a globally-aligned derivatives market from the ground up, including its work on index futures, single stock futures, and clearing infrastructure via Muqassa. In parallel, Hong Kong continues to strengthen its position as a gateway to Asia. Together, these initiatives create an opportunity for greater alignment in market standards, capital flows, and investor engagement — where shared ambition can deliver outcomes greater than the sum of the parts."

11:35 - 12:25 Panel 4: Strategic Corporates in Focus: Capital Markets as a Catalyst for Growth

"This panel will spotlight leading regional corporates operating at the intersection of energy, infrastructure, and industrial transformation - sectors central to long-term economic growth and capital deployment. As active participants in the capital markets ecosystem, these companies are constantly assessing new funding channels and driving cross-border expansion.

The discussion will explore how these firms are leveraging public listings, strategic partnerships, and international capital flows to scale operations, execute regional investments, and meet the expectations of a global investor base. Panelists will also share perspectives on transparency, investor engagement, and financing strategies in today's evolving market environment."
